

Step-by-Step Guide for Filing Health and Accident Insurance Claims

Step 1: Understand Your Policy

Review your insurance policy to understand the coverage, inclusions, exclusions, and claim limits.

Check whether the treatment or accident is covered under the policy.

Note the deadlines for filing a claim.

Step 2: Notify the Insurance Provider

Inform your insurance company as soon as possible about the claim.

Most insurers have a helpline, mobile app, or online portal for claim initiation.

For planned hospitalizations, notify the insurer in advance (pre-authorization).

For emergencies, inform the insurer within the stipulated timeframe.

Step 3: Gather Required Documents

Typical documents required include:

- ✓ Claim form – Filled and signed.
 - ✓ Medical reports – Doctor's prescription, diagnosis, and treatment details.
 - ✓ Hospital bills – Original invoices and receipts for payments.
 - ✓ Discharge summary – If hospitalized.
 - ✓ Accident report – If claiming accident insurance, police FIR (if applicable).
 - ✓ Proof of identity – Policyholder's ID and insurance details.
 - ✓ Bank details – For reimbursement claims.
-

Step 4: Choose the Type of Claim

1. Cashless Claim (For Network Hospitals)

If the hospital is in the insurer's network, request a cashless treatment facility.

Fill out the pre-authorization form and submit it to the hospital insurance desk.

The hospital and insurer will coordinate directly.

2. Reimbursement Claim (For Non-Network Hospitals)

Pay the hospital bills upfront.

Submit the necessary documents and receipts to the insurer.

The insurer will verify and reimburse the approved amount to your bank account.

Step 5: Submit the Claim

Submit all documents through the insurer's online portal, email, or in-person at the nearest branch.

Ensure all forms are completely filled and signed to avoid delays.

Step 6: Follow Up

Track your claim status via the insurer's portal or customer care.

Respond promptly if additional documents or clarifications are requested.

Step 7: Claim Settlement

Once verified, the insurer will approve and process the payment.

If any part of the claim is rejected, review the rejection reason and appeal if needed.
